## AMPHENOL FCI NETWORK SOLUTIONS

YOUR TRUSTED GLOBAL PARTNER FOR  
INNOVATIVE END TO END COPPER AND  
FIBER CABLING SOLUTIONS

2021-22 CATALOG

# Amphenol FCi

As a global leader in interconnect solutions and network connectivity systems, Amphenol FCI Network Solutions (AFNS) provides both standard and customized passive network solution products to the market. Our commitment to the stringent management of our supply chain and manufacturing focus enables us to consistently deliver the highest quality, high performance products and solutions to our customers.

AFNS offers an extensive range of ICT product and solutions, including end-to-end structured cabling solutions, high performance and high density data center solutions, FTTH, outside plant fiber campus connectivity solutions, PLC Splitters, and other customized products for ICT applications on demand.

Our team works closely with the industry experts to constantly develop new products and technology solutions and makes customer satisfaction our top priority.

With our unmatched expertise in fiber infrastructure and ICT technology, rely on us to enhance and migrate your enterprise network, data center and broadband network to outperform today and be ready for the needs of tomorrow.

Amphenol FCI's quality system is certified to ISO 9001:2015 and ISO 14001:2015 standards.

All passive components are RoHS compliant.

## COPPER ETHERNET SOLUTIONS

### A. Copper Network Cables

AFNS Category 8.2 2000 MHz 22AWG S/FTP Cable .....	1
AFNS Category 7A 1200 MHz 22AWG S/FTP Cable .....	1
AFNS Category 6A 500 MHz 23AWG S/FTP Cable .....	2
AFNS Category 6A 500 MHz 23AWG F/UTP Cable .....	2
AFNS Category 6A 500 MHz 23AWG U/FTP Cable .....	3
AFNS Category 6A 500 MHz 23AWG U/UTP Cable .....	3
AFNS Category 6 250 MHz 23 AWG S/FTP Cable .....	4
AFNS Category 6 250 MHz 23AWG F/UTP Cable .....	4
AFNS Category 6 250 MHz 23AWG U/UTP Cable .....	5
AFNS Category 6 250 MHz 24AWG U/UTP Cable .....	5

### B. Copper Network Patch Cords

AFNS Category 8 S/FTP Patch Cord .....	6
AFNS Category 7A S/FTP Patch Cord .....	7
AFNS Category 6A S/FTP Patch Cord .....	8
AFNS Category 6A F/UTP Patch Cord .....	9
AFNS Category 6A U/UTP Patch Cord .....	10
AFNS Category 6 S/FTP Patch Cord .....	11
AFNS Category 6 F/UTP Patch Cord .....	12
AFNS Category 6 U/UTP Patch Cord.....	13

### C. Information Outlets (IO)

AFNS Category 6A Shielded (STP) IO - Toolless Type.....	13
AFNS Category 6A Shielded (STP) IO - Regular Punch down Type.....	14
AFNS Category 6 Shielded (STP) IO - Toolless Type .....	14
AFNS Category 6A Unshielded (UTP) IO - Toolless Type .....	15
AFNS Category 6A Unshielded (UTP) IO - Regular Punch down Type .....	15
AFNS Category 6 Unshielded (UTP) IO - Toolless Type .....	16
AFNS Category 6 Unshielded (UTP) IO - Regular Punch down Type.....	16

### D. Jack/Patch Panel

AFNS Unloaded Jack Panel .....	17
AFNS Category 6A Shielded Jack Panel - Loaded.....	17
AFNS Category 6A Unshielded Jack Panel - Loaded.....	18
AFNS Category 6 Shielded Jack Panel - Loaded.....	18
AFNS Category 6 Unshielded Jack Panel - Loaded.....	19

### E. Wall Faceplate

AFNS BS Type Faceplate - Type 1 .....	20
AFNS BS Type Faceplate - Type 2.....	20

### F. Field SF RJ-45 Male Connector

AFNS Category 6A Shielded (STP) Field RJ-45 Connector .....	21
AFNS Category 6A Unshielded (UTP) Field RJ-45 Connector .....	21
AFNS Category 6 Shielded (STP) Field RJ-45 Connector .....	22
AFNS Category 6 Unshielded (UTP) Field RJ-45 Connector .....	22

### G. Industrial Network Products

AFNS Category 6A Shielded (STP) Industrial IO Jack .....	23
AFNS Category 6A Unshielded (UTP) Industrial IO Jack.....	23
AFNS Category 6 Shielded (STP) Industrial IO Jack.....	24
AFNS Category 6 Unshielded (UTP) Industrial IO Jack.....	24
AFNS Industrial Faceplate.....	25
AFNS Category 6A Shielded (STP) Industrial RJ-45 Patch Cord.....	25
AFNS Category 6A Unshielded (UTP) Industrial RJ-45 Patch Cord.....	26
AFNS Category 6 Shielded (STP) Industrial RJ-45 Patch Cord.....	27
AFNS Category 6 Unshielded (UTP) Industrial RJ-45 Patch Cord.....	28

## FIBER OPTIC SOLUTIONS

### H. Optical Fiber Cables (OFC)

AFNS Outdoor Armoured Multi-tube (MLT) Gel Filled OFC HDPE .....	29
AFNS Outdoor Armoured Multi-tube (MLT) Gel Filled OFC Nylon .....	30
AFNS Outdoor Armoured Multi-tube (MLT) Dry Core OFC LSZH.....	31

AFNS Outdoor Armoured Unitube (UT) Gel Filled OFC HDPE .....	32
AFNS Outdoor Armoured Unitube (UT) Gel Filled OFC Nylon .....	33
AFNS Outdoor Armoured Unitube (UT) Dry Core OFC LSZH.....	34
AFNS Outdoor Unarmoured (Duct) Multi-tube (MLT) Gel Filled OFC HDPE .....	35
AFNS Outdoor Unarmoured (Duct) Multi-tube (MLT) Gel Filled OFC Nylon .....	36
AFNS Outdoor Unarmoured (Duct) Multi-tube (MLT) Dry Core OFC LSZH.....	37
AFNS Outdoor Unarmoured (Duct) Unitube(UT) Gel Filled OFC HDPE .....	38
AFNS Outdoor Unarmoured (Duct) Unitube(UT) Gel Filled OFC Nylon .....	39
AFNS Outdoor Unarmoured (Duct) Unitube(UT) Dry Core OFC LSZH.....	40
AFNS Indoor Tight Buffer Riser OFC .....	41
AFNS Indoor Flat Drop FTTH OFC .....	42
AFNS Indoor Round Drop FTTH OFC .....	43
AFNS Indoor/Outdoor Round Armoured Drop FTTH OFC .....	44

### I. Connectors & Adapters

AFNS Fiber Optic SC Connector.....	45
AFNS Fiber Optic LC Connector.....	46
AFNS Fiber Optic SC & LC Field Connector.....	47
AFNS Fiber Optic SC & LC Adapters .....	48
AFNS Fiber Optic SC/APC & LC/APC Adapters .....	49

### J. Fiber Optic Patch Panel

AFNS Rack Mount Panel - Sliding Drawer Type-1U.....	50
AFNS Rack Mount Panel - Sliding Drawer Type-2U.....	51

### K. Fiber Termination Box

AFNS Wall Mount Indoor/Outdoor Fiber Terminal Box: 24F.....	52
---	----

### L. Fiber Distribution Box

AFNS Wall Mount Indoor/Outdoor Fiber Distribution Box: 24F.....	53
AFNS Wall Mount Indoor/Outdoor Fiber Distribution Box: 48F .....	54

### M. Fiber Home Termination Box (HTB)

AFNS Wall Mount Indoor/ Home Termination Box (HTB).....	55
---	----

### N. Fiber PLC Splitters

AFNS Mini Module PLC Splitter.....	56
AFNS ABS Module PLC Splitter.....	57
AFNS LGX Cassette Module PLC Splitter.....	58
AFNS Rack Mount Panel PLC Splitter.....	59

### O. Fiber Cable Assemblies

AFNS Optical Fiber Pigtailed - Standard Type.....	60
AFNS Optical Fiber Patch Cords - Standard Type.....	61

### P. DIN Rail Type Fiber Panel

AFNS Mini DIN Rail Type 1 Panel.....	63
AFNS Mini DIN Rail Type 2 Panel.....	64

### Q. Fiber Joint Closure

AFNS Outdoor Dome Type Closure - Type 1.....	65
AFNS Outdoor Dome Type Closure - Type 2.....	65

### R. Advanced MPO Fiber Solutions

AFNS MPO Rack Mount Solutions .....	66
AFNS MPO-MPO Cable Assemblies.....	67
AFNS MPO-LC Trunk Cable Assemblies.....	69

## AFNS CATEGORY 8.2 S/FTP 4PAIR 22AWG SOLID CABLE

AFNS Cat 8.2 S/FTP Cable is designed to support high speed IEEE 802.3bt 4P PoE+, high data rates, high bandwidth digital applications with low BER and indoor fixed installations

- Operates at bandwidth of 2000 MHz
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network applications beyond 10-Gbps such as 25-Gbps (25GBASE-T) & 40-Gbps (40GBASE-T) with 30-meter Class II channels at the MAC/PLS service interface
- Enhanced overall high screen coverage outer braid and individual foil around each pair shielded twisted pair cable construction
- Resistant to alien crosstalk, provides excellent signal isolation and provides superior electromagnetic interference (EMI) protection to provide superior noise immunity and coupling attenuation performance
- Available in LSZH and FR PVC Jacket
- Packaging type: Reel with snag free pulling
- RoHS Compliant

### Ordering Information

Part Number	Product Code	Product Description
AFCC6SI24T11	AFC-100001	AFNS Cat8.2 4Pair S/FTP 22AWG LSZH Cable - 305m reel
AFCC6SI24T21	AFC-100002	AFNS Cat8.2 4Pair S/FTP 22AWG LSZH Cable - 500m reel
AFCC6SI14T11	AFC-100003	AFNS Cat8.2 4Pair S/FTP 22AWG FRPVC Cable - 305m reel
AFCC6SI14T21	AFC-100004	AFNS Cat8.2 4Pair S/FTP 22AWG FRPVC Cable - 500m reel

## AFNS CATEGORY 7A S/FTP 4PAIR 22AWG SOLID CABLE

AFNS Cat7A S/FTP cable is designed to support high speed IEEE 802.3bt 4P PoE+, high data rates, high bandwidth digital applications with low BER and indoor fixed installations.

- Operates at bandwidth of 1200 MHz
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network applications beyond 10-Gbps
- Enhanced overall high screen coverage outer braid and individual foil around each pair shielded twisted pair cable construction
- Resistant to alien crosstalk, provides excellent signal isolation and provides superior electromagnetic interference (EMI) protection to provide superior noise immunity and coupling attenuation performance
- Available in LSZH and FR PVC Jacket
- Packaging type: Reel with snag free pulling
- RoHS Compliant

### Ordering Information

Part Number	Product Code	Product Description
AFCC4SI24G11	AFC-100005	AFNS Cat7A 4Pair S/FTP 22AWG LSZH Cable - 305m reel
AFCC4SI24G21	AFC-100006	AFNS Cat7A 4Pair S/FTP 22AWG LSZH Cable - 500m reel
AFCC4SI14G11	AFC-100007	AFNS Cat7A 4Pair S/FTP 22AWG FRPVC Cable - 305m reel
AFCC4SI14G21	AFC-100008	AFNS Cat7A 4Pair S/FTP 22AWG FRPVC Cable - 500m reel

## AFNS CATEGORY 6A S/FTP 4PAIR 23AWG SOLID CABLE

AFNS Cat6A S/FTP cable is designed to support high speed IEEE 802.3bt 4P PoE+, high data rates, high bandwidth digital applications and indoor fixed installations.

- Operates at bandwidth of 500 MHz
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network for 10-Gbps Ethernet applications
- Enhanced overall high screen coverage outer braid and individual foil around each pair shielded twisted pair cable construction
- Resistant to alien crosstalk, provides excellent signal isolation and provides superior electromagnetic interference (EMI) protection to provide superior noise immunity and coupling attenuation performance
- Available in LSZH and FR PVC Jacket
- Packaging type: Reel with snag free pulling
- RoHS Compliant

### Ordering Information

Part Number	Product Code	Product Description
AFCC2SI22G11	AFC-100009	AFNS Cat6A 4Pair S/FTP 23AWG LSZH Cable - 305m reel
AFCC2SI22G21	AFC-100010	AFNS Cat6A 4Pair S/FTP 23AWG LSZH Cable - 500m reel
AFCC2SI12G11	AFC-100011	AFNS Cat6A 4Pair S/FTP 23AWG FRPVC Cable - 305m reel
AFCC2SI12G21	AFC-100012	AFNS Cat6A 4Pair S/FTP 23AWG FRPVC Cable - 500m reel

## AFNS CATEGORY 6A F/UTP 4PAIR 23AWG SOLID CABLE

AFNS Cat6A F/UTP cable is designed to support high speed IEEE 802.3bt 4P PoE+, high data rates, high bandwidth digital applications and indoor fixed installations.

- Operates at bandwidth of 500 MHz
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network for 10-Gbps Ethernet applications
- Enhanced overall foiled around four twisted pair cable construction
- Minimizes alien crosstalk, provides excellent signal isolation and provides electromagnetic interference (EMI) protection to provide noise immunity
- Available in LSZH and FR PVC Jacket
- Packaging type: Reel with snag free pulling
- RoHS Compliant

### Ordering Information

Part Number	Product Code	Product Description
AFCC2FI22G11	AFC-100013	AFNS Cat6A 4Pair F/UTP 23AWG LSZH Cable - 305m reel
AFCC2FI22G21	AFC-100014	AFNS Cat6A 4Pair F/UTP 23AWG LSZH Cable - 500m reel
AFCC2FI12G11	AFC-100015	AFNS Cat6A 4Pair F/UTP 23AWG FRPVC Cable - 305m reel
AFCC2FI12G21	AFC-100016	AFNS Cat6A 4Pair F/UTP 23AWG FRPVC Cable - 500m reel

## AFNS CATEGORY 6A U/FTP 4PAIR 23AWG SOLID CABLE

AFNS Cat6A U/FTP cable is designed to support high speed IEEE 802.3bt 4P PoE+, high data rates, high bandwidth digital applications, and indoor fixed installations

- Operates at bandwidth of 500 MHz
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network for 10-Gbps Ethernet applications
- Enhanced individual foil around each pair shielded twisted pair cable construction
- Minimizes alien crosstalk, provides excellent signal isolation and provides electromagnetic interference (EMI) protection to provide noise immunity
- Available in LSZH and FR PVC Jacket
- Packaging type: Reel with snag free pulling
- RoHS Compliant

AFCC2UI12G21	AFC-100024	AFNS Cat6A 4Pair U/UTP 23AWG FRPVC Cable - 500m reel

## AFNS CATEGORY 6 S/FTP 4PAIR 23AWG SOLID CABLE

AFNS Cat 6 S/FTP cable is designed to support high speed IEEE 802.3bt 4P PoE+, high data rates, high bandwidth digital applications, and indoor fixed installations.

- Operates at bandwidth of 250 MHz
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports 1Gbps speed data Ethernet applications
- Enhanced overall high screen coverage outer braid and individual foil around each pair shielded twisted pair cable construction
- Resistant to crosstalk, provides excellent signal isolation and provides superior electromagnetic interference (EMI) protection to provide superior noise immunity
- Available in LSZH and FR PVC Jacket
- Packaging type: Reel with snag free pulling
- RoHS Compliant

## AFNS CATEGORY 8 S/FTP 4PAIR RJ-45 PATCH CORD

AFNS Cat 8 S/FTP Patch cords are designed to support high speed IEEE 802.3bt 4P PoE+, high data rates, high bandwidth digital applications with low BER and indoor fixed applications.

- Shielded twisted pair design.
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network applications beyond 10-Gbps such as 25-Gbps (25GBASE-T) & 40-Gbps (40GBASE-T) at the MAC/PLS service interface
- Enhanced overall high screen coverage outer braid and individual foils around each pair shielded twisted pair cable construction
- Resistant to alien crosstalk, provides excellent signal isolation and provides superior electro-magnetic interference (EMI) protection to provide superior noise immunity
- Slim boot snag proof design RJ-45 shielded plug for superior performance
- Both component & channel compliant
- Wiring: T568B
- 100% factory tested for system performance
- Available in LSZH and FR PVC Jacket
- Available in 6 different colours\*
- Available in standard and customized\* lengths
- RoHS Compliant

## AFNS Category 6A F/UTP 4Pair RJ-45 Patch Cord

AFNS Category 6A F/UTP Patch cords are designed to support high speed IEEE 802.3bt 4P PoE+, high data rates, high bandwidth digital applications with low BER and indoor fixed applications.

- Shielded twisted pair design.
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network for 10-Gbps Ethernet applications
- Enhanced overall foiled around four twisted pair cable construction
- Eliminates alien crosstalk, provides excellent signal isolation and provides electromagnetic interference (EMI) protection to provide noise immunity
- Slim boot snag proof design RJ-45 shielded plug for superior performance
- Wiring: T568B
- Both component & channel compliant
- 100% factory tested for system performance
- Available in LSZH and FR PVC Jacket
- Available in 6 different colours\*
- Available in standard and customized\* lengths
- RoHS Compliant

## AFNS Category 6A U/UTP 4Pair RJ-45 Patch Cord

AFNS Category 6A U/UTP Patch cords are designed to support high speed IEEE 802.3bt 4P PoE+, high data rates, high bandwidth digital applications with low BER and indoor fixed applications.

- Unshielded twisted pair design
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network for 10-Gbps Ethernet applications
- Slim boot snag proof design RJ-45 unshielded plug for superior performance
- Wiring: T568B
- Both component & channel compliant
- 100% factory tested for system performance
- Available in LSZH and FR PVC Jacket
- Available in 6 different colours\*
- Available in standard and customized\* lengths
- RoHS Compliant

## AFNS Category 6 S/FTP 4Pair RJ-45 Patch Cord

AFNS Category 6 S/FTP Patch cords are designed to support high speed IEEE 802.3bt 4P PoE+, high data rates, high bandwidth digital applications with low BER and indoor fixed applications.

- Shielded twisted pair design.
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network for 1Gbps Ethernet applications
- Enhanced overall high screen coverage outer braid and individual foils around each pair shielded twisted pair cable construction
- Resistant to crosstalk, provides excellent signal isolation and provides superior electromagnetic interference (EMI) protection to provide superior noise immunity
- Slim boot snag proof design RJ-45 shielded plug for superior performance
- Wiring: T568B
- Both component & channel compliant
- 100% factory tested for system performance
- Available in LSZH and FR PVC Jacket

## INFORMATION OUTLET (IO) JACKS

### AFNS Category 6A Shielded (Die-Cast) Keystone RJ-45 IO Jack Tool-less Type

AFNS keystone RJ-45 IO jack is the key component of the Cat6A high performance cabling system. The product delivers superior alien crosstalk suppression & excellent insertion loss performance.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network for 10Gbps Ethernet applications
- Robust die cast zinc alloy housing Jacks with 360° shielded design
- Provides enhanced electromagnetic interference (EMI) protection and superior noise immunity.
- Tool-less type design for ease of installation at site without the use of the punch down tool
- Both component & channel compliant
- Wiring: both T568A & T568B
- 100% factory tested for system performance
- RoHS Compliant

### Ordering Information

AFCI221ULD3	AFC-100158	AFNS Cat6A Shielded IO Jack - Tool-less type

## AFNS Category 6A Shielded (Die-Cast) Keystone RJ-45 IO Jack Punch down Type

AFNS keystone RJ-45 IO jack is the key component of the Cat6A high performance cabling system. The product delivers superior alien crosstalk suppression & excellent insertion loss performance.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network for 10Gbps Ethernet applications
- Robust die cast zinc alloy housing with 360° shielded design
- Provides enhanced electromagnetic interference (EMI) protection and superior noise immunity.
- Punch down IDC design type
- Compatible with AFNS rapid punch down tool or with industry standard 110 termination tool
- Both component & channel compliant
- Wiring: both T568A & T568B
- 100% factory tested for system performance
- RoHS Compliant

## AFNS Unloaded Keystone (KS) Type Jack Panel

AFNS unloaded KS type jack panel can be configured to provide you the exact number of ports required. It's a universal modular design compatible with category 6A & category 6 shielded (STP) and unshielded (UTP) keystone IO jacks

- Available in 1U 24port & 2U 48Port Straight and Angular type
- Compatible for easy snap in of the UTP and STP Keystone Jacks
- Compatible with both tool-less and non-tool-less (punch down type) Keystone IO Jacks
- Individually removable jack panel ports for ease of maintenance during operations.
- Individually removable ports also provides flexibility during installation
- Removable rear cable management bar with cable bend radius features
- Constructed of powder coated cold rolled steel (CRS) for high mechanical performance and durability
- Grounding screws provided for shielded installation
- 100% tested for mechanical characteristics.
- RoHS Compliant

AFCJ1124XX21	AFC-100183	AFNS 24P 1U KS Straight Jack Panel -Unloaded
AFCJ1248XX21	AFC-100184	AFNS 48P 2U KS Straight Jack Panel -Unloaded
AFCJ1124XX21	AFC-100185	AFNS 24P 1U KS Angular Jack Panel -Unloaded
AFCJ2248XX21	AFC-100186	AFNS 48P 2U KS Angular Jack Panel -Unloaded

## AFNS Category 6A Shielded (STP) Jack Panel - KS Loaded

- Available in Cat6A Shielded 1U loaded 24Port & 2U 48Port straight and angular type panels
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network for 10Gbps Ethernet applications
- Robust die cast zinc alloy housing for Cat6A IO Jacks with 360° shielded design
- Grounding screws provided for shielded installation
- Provides enhanced electromagnetic interference (EMI) protection and superior noise immunity.
- Both component & channel compliant
- Wiring: both T568A & T568B
- Individually removable jack panel ports for ease of maintenance during operations.
- Individually removable ports also provides flexibility during installation
- Removable rear cable management bar with cable bend radius features
- Constructed of powder coated cold rolled steel (CRS) for high mechanical performance and durability
- 100% factory tested for mechanical characteristics and system performance
- RoHS Compliant

## AFNS Cat6A Unshielded (UTP) Jack Panel – KS Loaded

- Available in Cat6A Unshielded 1U loaded 24Port & 2U 48Port straight and angular type panels
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network for 10Gbps Ethernet applications
- Loaded with black Keystone high performance Cat6A IO Jacks
- Both component & channel compliant
- Wiring: both T568A & T568B
- Individually removable jack panel ports for ease of maintenance during operations.
- Individually removable ports also provides flexibility during installation
- Removable rear cable management bar with cable bend radius features
- Constructed of powder coated cold rolled steel (CRS) for high mechanical performance and durability
- 100% factory tested for mechanical characteristics and system performance
- RoHS Compliant

## AFNS BS TYPE FACE PLATE 86X86 TYPE-1

AFNS unloaded KS type jack panel can be configured to provide you the exact number of ports required. It's a universal modular design compatible with category 6A & category 6 shielded (STP) and unshielded (UTP) keystone IO jacks

- Available in 1port, 2 ports and 4ports design
- Compatible for easy snap in of the UTP and STP Keystone IO Jacks
- Compatible with both tool-less and non-tool-less (punch down type) Keystone IO Jacks
- Inbuilt spring type shutter for dust protection
- Individually removable IO ports for ease of maintenance during operations.
- Provides flexibility during installation
- Dimensions: 86mm X 86mm (BS design)
- RoHS Compliant

## AFNS CATEGORY 6A SHIELDED (STP) FIELD RJ-45 CONNECTOR

AFNS Category 6A shielded die-cast type RJ-45 IO male connector is designed to provide flexible connectivity on field for quick installation.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Robust die cast zinc alloy housing connector with 360° shielded design
- Provides enhanced electromagnetic interference (EMI) protection and superior noise immunity.
- IP-20 Rated
- Tool-less type design for ease of installation at site without the use of the crimping tool
- Wiring: both T568A & T568B
- 100% factory tested for system performance
- RoHS Compliant

### Ordering Information

AFCM2221L22S	AFC-100209	AFNS Cat6A STP RJ-45 Male SF Field Connector

## AFNS CATEGORY 6A UNSHIELDED (UTP) FIELD RJ-45 CONNECTOR

AFNS Category 6A unshielded (UTP) RJ-45 IO male connector is designed to provide flexible connectivity on field for quick installation.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- IP-20 Rated
- Tool-less type design for ease of installation at site without the use of the crimping tool
- Wiring: both T568A & T568B
- 100% factory tested for system performance
- RoHS Compliant

## AFNS CATEGORY 6A SHIELDED (STP) INDUSTRIAL IO JACK

AFNS Category 6A shielded industrial RJ-45 IO Jack is specifically designed for harsh environments. Ideally suitable for the installation of Ethernet LAN applications for manufacturing facilities, transportation hubs, chemical factories, automotive facilities, pharmaceutical factories, water treatment plants, oil & gas facilities, food & beverage facilities, etc., Industrial solution has an unique bayonet kind of latching system to meet and ensure superior network performance for such harsh applications. The product delivers superior alien crosstalk suppression & excellent insertion loss performance.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Robust shielded design
- Provides enhanced electromagnetic interference (EMI) protection and superior noise immunity
- Punch down IDC design type
- Bayonet style locking with outer cap
- IP-67 and NEMA 6P ratings
- Protection from UV rays, oil, water, heat, dirt, acids, chemicals, moisture, vibration and dust
- Suitable for extreme harsh environments
- Wiring: both T568A & T568B
- 100% factory tested for system performance
- RoHS Compliant

## AFNS INDUSTRIAL FACEPLATE

AFNS Industrial type stainless steel face plate can be configured to provide the LAN ports required for the workstation cabling suitable for harsh environments. It has a universal modular design compatible with category 6A & category 6 shielded (STP) and unshielded (UTP) Industrial bayonet type latching IO jacks

- Available in 1port and 2 ports design
- Made of high quality Stainless steel material
- IP67 rated
- Protection from UV rays, oil, water, heat, dirt, acids, chemicals, moisture, vibration and dust
- Compatible with AFNS UTP and STP bayonet type RJ-45 IO Jacks
- Dimensions: 120mm X 70mm X 11mm
- 100% tested for mechanical characteristics
- RoHS Compliant

## AFNS Category 6A Shielded (STP) Industrial RJ-45 Patch Cord

AFNS Category 6A shielded industrial RJ-45 Patch cords are specifically designed for harsh environments. Ideally suitable for the installation of Ethernet LAN applications for manufacturing facilities, transportation hubs, chemical factories, automotive facilities, pharmaceutical factories, water treatment plants, oil & gas facilities, food & beverage facilities, etc., Industrial solution has an unique bayonet kind of latching system to meet and ensure superior network performance for such harsh applications. The product delivers superior alien crosstalk suppression & excellent insertion loss performance.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.2-D and ISO/IEC 11801 standards
- Supports high speed data network for 10Gbps Ethernet applications
- Shielded F/UTP cable construction with Industrial grade black outer sheath
- 4 pair 24 AWG stranded bare copper conductor
- High performance shielded RJ-45 plug
- Provides enhanced electromagnetic interference (EMI) protection and superior noise immunity.
- Bayonet style connector locking with cap for protection
- Avoids accidental disconnection
- IP-67 and NEMA 6P ratings
- Protection from UV rays, oil, water, heat, dirt, acids, chemicals, moisture, vibration and dust
- Suitable for extreme harsh environments
- Wiring scheme available in both T568A & T568B
- 100% factory tested for system performance
- RoHS Compliant

## AFNS OUTDOOR ARMoured MULTI-TUBE (MLT) OF CABLE - HDPE JACKET

AFNS armoured optical fiber cable is suitable for the direct burial installation for feeder, distribution and campus backbone connectivity outdoor application.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and ISO/IEC 11801 standards
- Loose tube gel filled and central FRP design
- ECCS Corrugated Steel Tape Armoured (CSTA) for direct burial and harsh outdoor applications
- Color coded fibers and loose tubes for ease of termination
- Available in single mode 9/125um OS2, Multimode 50/125um OM2, OM3, OM4 & OM5 fiber cores
- UV stabilized HDPE black outer sheath
- Anti-rodent & anti termite protection.
- Packaging type: Wooden reel - 2km/4km
- RoHS Compliant

OPTICAL FIBER SOLUTIONS

## AFNS OUTDOOR ARMoured MULTI-TUBE (MLT) OF CABLE - NYLON JACKET

AFNS armoured gel filled optical fiber cable is suitable for the direct burial installation for feeder, distribution and campus backbone connectivity outdoor application.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and ISO/IEC 11801 standards
- Loose tube gel filled and central FRP design
- ECCS Corrugated Steel Tape Armoured (CSTA) for direct burial and harsh outdoor applications
- Color coded fibers and loose tubes for ease of termination
- Available in single mode 9/125um OS2, Multimode 50/125um OM2, OM3, OM4 & OM5 fiber cores
- UV stabilized Nylon Black outer sheath
- Anti-rodent & anti termite protection.
- Packaging type: Wooden reel - 2km/4km
- RoHS Compliant

## AFNS OUTDOOR ARMoured MULTI-TUBE (MLT) DRY CORE OF CABLE - LSZH JACKET

AFNS armoured dry core (gel free) optical fiber cable is suitable for the direct burial installation for feeder, distribution and campus backbone connectivity outdoor application.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and ISO/IEC 11801 standards
- Loose tube dry core (gel free) and central FRP design
- ECCS Corrugated Steel Tape Armoured (CSTA) for direct burial and harsh outdoor applications
- Color coded fibers and loose tubes for ease of termination
- Available in single mode 9/125um OS2, Multimode 50/125um OM2, OM3, OM4 & OM5 fiber cores
- UV stabilized LSZH black outer sheath
- Anti-rodent & anti termite protection.
- Packaging type: Wooden reel - 2km/4km
- RoHS Compliant

## AFNS OUTDOOR ARMoured UNITUBE (UT) GELL FILLED OF CABLE - HDPE JACKET

AFNS armoured optical fiber cable is suitable for the direct burial installation for feeder, distribution and campus backbone connectivity outdoor application.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and ISO/IEC 11801 standards
- Central single loose tube (Unitube) gel filled with 2 steel rods on the periphery
- ECCS Corrugated Steel Tape Armoured (CSTA) for direct burial outdoor applications
- Color coded fibers for ease of termination
- Available in single mode 9/125um OS2, multimode 50/125um OM2, OM3, OM4 & OM5 fiber cores
- UV stabilized HDPE black outer sheath
- Packaging type: Wooden reel - 2km/4km
- RoHS Compliant

## AFNS OUTDOOR UNARMoured MULTI-TUBE (MLT) OF CABLE - HDPE JACKET

AFNS unarmoured dielectric optical fiber cable is suitable for the installation in ducts for feeder, distribution and campus backbone connectivity outdoor application.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and ISO/IEC 11801 standards
- Loose tube gel filled and central FRP design
- Unarmoured dielectric non-metallic construction
- Color coded fibers and loose tubes for ease of termination
- Available in single mode 9/125um OS2, Multimode 50/125um OM2, OM3, OM4 & OM5 fiber cores
- UV stabilized HDPE black outer sheath
- Packaging type: Wooden reel - 2km/4km
- RoHS Compliant

OPTICAL FIBER SOLUTIONS

## AFNS OUTDOOR UNARMoured MULTI-TUBE (MLT) DRY CORE OF CABLE - LSZH JACKET

AFNS unarmoured dielectric dry core (gel free) optical fiber cable is suitable for the installation in ducts for feeder, distribution and campus backbone connectivity outdoor application.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and ISO/IEC 11801 standards
- Loose tube dry core (gel free) and central FRP design
- Unarmoured dielectric non-metallic construction
- Color coded fibers and loose tubes for ease of termination
- Available in single mode 9/125um OS2, Multimode 50/125um OM2, OM3, OM4 & OM5 fiber cores
- UV stabilized LSZH black outer sheath
- Packaging type: Wooden reel - 2km/4km
- RoHS Compliant

## AFNS OUTDOOR UNARMoured UNITUBE (UT) GELL FILLED OF CABLE - HDPE JACKET

AFNS unarmoured dielectric optical fiber cable is suitable for the installation in ducts for feeder, distribution and campus backbone connectivity outdoor application.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and ISO/IEC 11801 standards
- Central single loose tube (Unitube) gel filled with FRP rods on the periphery
- Unarmoured dielectric non-metallic construction
- Color coded fibers for ease of termination
- Available in single mode 9/125um OS2, multimode 50/125um OM2, OM3, OM4 & OM5 fiber cores
- UV stabilized HDPE black outer sheath
- Packaging type: Wooden reel - 2km/4km
- RoHS Compliant

## AFNS INDOOR TIGHT BUFFER RISER CABLE

AFNS indoor/outdoor tight buffer riser optical fiber cable is suitable for the installation in riser and floor distribution application.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and ISO/IEC 11801 standards
- Internal grade – riser and horizontal installation
- 900um tight buffer design for riser
- E-glass yarn strength member
- Unarmoured dielectric non –metallic design
- Lighter and smaller outer diameter for easy and fast installation
- Color coded fibers for ease of termination
- Available in single mode 9/125um OS2, multimode 50/125um OM2, OM3, OM4 & OM5 fiber cores
- Available in LSZH and FR PVC outer jackets
- 100% tested for mechanical and optical characteristics
- Packaging type: Wooden reel – 1km/2km
- RoHS Compliant

## AFNS INDOOR FLAT DROP FTTH CABLE

AFNS indoor flat optical fiber drop cable is suitable for the FTTH installation for inside building application.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and ISO/IEC 11801 standards
- Internal grade – riser and horizontal installation
- 900um tight buffer design for riser
- Bend insensitive (BI) G657 A1 & A2 fiber core
- Unarmoured dielectric non –metallic design
- Lighter and smaller dimensions for easy and fast installation
- Color coded fibers for ease of termination
- Available in LSZH and FR PVC outer jacket
- 100% tested for mechanical and optical characteristics
- Packaging type: Wooden reel – 1km/2km
- RoHS Compliant

## AFNS INDOOR/OUTDOOR ROUND ARMoured DROP FTTH CABLE

AFNS indoor/outdoor spiral armoured round optical fiber drop cable is suitable for the FTTH installation for inter and intra building applications

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and ISO/IEC 11801 standards
- Indoor, midspan and outdoor – riser and horizontal installation
- 900um tight buffer design
- Bend insensitive (BI) G657A1 & A2 fiber core
- Steel Spiral armoured design for more physical protection
- Lighter and smaller outer diameter for easy and fast installation
- Color coded fibers for ease of termination
- Available in LSZH and FR PVC outer jacket
- 100% tested for mechanical and optical characteristics
- Packaging type: Wooden reel – 1km/2km
- RoHS Compliant

**AFNS Fiber Optic SC Connector**

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and IEC standards
- Available in single mode & multimode fiber types
- Available in SC UPC and SC APC types
- Low insertion loss: SM <0.15dB typical loss MM <0.34dB typical loss
- Available in short boot and long boot variants
- Available in 900um, 2mm & 3mm boots
- Easy to assemble
- RoHS Compliant

## AFNS Fiber Optic LC Connector

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and IEC standards
- Small form factor connector
- Available in single mode & multimode
- Available in Simplex & Duplex Type
- Available in LC UPC and LC APC types
- Low insertion loss: SM <0.15dB typical loss, MM <0.30dB typical loss
- Available in short boot and long boot variants
- Available in 900um, 2mm & 3mm boots
- RoHS Compliant

Note: LC Connectors are also available in Duplex type with clips.

## NOTES

## AFNS Fiber Optic SC & LC Field Connector

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and IEC standards
- For quick and easy installation at site
- Available in single mode & multimode fiber types
- Available in SC UPC, SC APC and small form factor LC UPC and LC APC type.
- Available in short boot and long boot
- Available in simplex type
- Available in 900um & 250um boot
- Low tooling – only strip and cleaving tool required at site for installation
- Easy to assemble
- RoHS Compliant

## Rack Mount Panel - Sliding Drawer Type - 1U

AFNS provides an extensive range of fiber optic patch panels. All rack mount panels are fully compatible with whole range of industry standard fiber optic adapters and connectors. These panels deliver high performance and stability. All panel products are manufactured to exceed customer satisfaction with highest standards of quality

- Constructed of high quality cold rolled closed annealed steel (CRCA) with electrostatically applied powder coat
- Rugged steel construction
- Available in Black or Grey Body
- Sliding panel fits in 1U of rack space and can be mounted on 19” racks
- Smooth sliding tray ensures ease of installation, reconfiguration and better operating environment during fiber management
- Loaded with splice tray
- Rear access for incoming and outgoing backbone cables
- Available in unloaded type panels or loaded panels with multimode and single mode adapters – 24F with SC type adapters and 48F with LC type adapters and pigtailed
- FC, ST, E2000 type adapter panels are available on request
- RoHS compliant

OPTICAL FIBER SOLUTIONS

## Rack Mount Panel - Sliding Drawer Type - 2U

AFNS provides an extensive range of fiber optic patch panels. All rack mount panels are fully compatible with whole range of industry standard fiber optic adapters and connectors. These panels deliver high performance and stability. All panel products are manufactured to exceed customer satisfaction with highest standards of quality

- Constructed of high quality cold rolled closed annealed steel (CRCA) with electrostatically applied powder coat
- Rugged steel construction
- Available in Black or Grey Body
- Sliding panel fits in 2U of rack space and can be mounted on 19" racks
- Smooth sliding tray ensures ease of installation, reconfiguration and better operating environment during fiber management
- Loaded with splice tray
- Rear access for incoming and outgoing backbone cables
- Available in unloaded type panels or loaded panels with multimode and single mode adapters – 48F with SC type adapters and 96F with LC type adapters and pigtails
- FC, ST, E2000 type adapter panels are available on request
- RoHS compliant

### Ordering Information

# FIBER TERMINATION BOX

## Wall Mount Indoor/Outdoor Fiber Terminal Box: 24F

AFNS mini wall mount fiber terminal box (FTB) is designed to provide quick patching, storing fiber terminations. It is also used to mount passive splitters and install fiber in small and medium size multi dwelling units (MDU's) for FTTx application.

- Constructed of high quality polymer synthetic plastic
- Installation: Outdoor and indoor wall mount type
- Mechanical seal for excellent seal performance and reusable
- IP-65 rated
- Single door type which can be flipped over for ease of access and maintenance
- Accommodates all cables below 12mm OD and 3mm OD soft cables
- Available with unloaded and loaded variants
- Accommodates multimode and single mode fibers
- Can accommodate 1\*4, 1\*8 & 1\*16 mini module PLC splitters
- Ample storage for slack
- Can be preloaded with SC, LC adapters and pre-terminated cable assemblies
- Can be used for 1F to 24F
- RoHS compliant

## Wall Mount Indoor/Outdoor Fiber Distribution Box: 48F

AFNS wall mount fiber distribution box (FDB) is designed to provide quick patching, storing fiber terminations for feeder cables, branch cable, direct connection and allocation. It is also used to mount passive splitters and install fiber in small and medium size multi dwelling units (MDU's) for FTTx application.

- Constructed of high quality polymer synthetic plastic
- Installation: Outdoor and indoor wall mount type
- Mechanical seal for excellent seal performance and reusable
- IP-65 rated
- Single door type which can be flipped over for ease of access and maintenance
- Accommodates all cables below 12mm OD and 3mm OD soft cables
- Available with unloaded and loaded variants
- Accommodates multimode and single mode fibers
- Can accommodate 1\*8, 1\*16 & 1\*32 mini module PLC splitters
- Ample storage for slack
- Can be preloaded with SC, LC adapters and pre-terminated cable assemblies
- Can be used for 1F to 48F
- RoHS compliant

OPTICAL FIBER SOLUTIONS

Wall Mount Indoor Home Termination Box (HTB)

AFNS Fiber Home termination Box (HTB) is designed to be used inside the building for FTTH application.

- Constructed of high quality ABS
- Installation : Inside home for FTTH / FTTB/FTTD applications
- Can be used universally with standard 86x86 splice box.
- Fits for indoor wiring and fast installation
- Holds up to max 2 single fibers
- Integrated fiber management
- Available with unloaded and loaded variants
- Can be pre-loaded with SC APC SM Adapters & G657A1 bend insensitive fiber pigtail
- RoHS compliant

## Mini Module PLC Splitter

AFNS provides a complete range of high performance 1×N or 2×N single mode passive power splitter based on Planar Light wave Circuit (PLC) technology. The device uniformly splits the optical signals present at the input ports to multiple output ports. Power splitters can also be used in the reverse direction in order to combine multiple optical signals present at the output ports into the input ports.

- Mini-module PLC splitters are available in 1\*N & 2\*N split ratio; N=2, 4, 8, 16, 32, 64
- Meets and exceeds performance as per the requirements of Telcordia GR-1221 and GR-1209 standards
- Low insertion loss
- Excellent splitting uniformity
- Low polarization dependency
- High maximum power tolerance
- Available in both pre-connectorised and unconnectorised bare type
- Available in SM SC and LC connector option with 900um tight buffer cable
- 100% tested for mechanical and optical characteristics
- RoHS Compliant

AFF-SPM264SCA9	AFF-100416	2*64 PLC Splitter Mini Module type 900µm with SM SC APC Connector

Note: Replace SCA with LCA in the above part numbers for LC APC connector PLC Splitter

## ABS Module PLC Splitter

AFNS provides a complete range of high performance 1×N or 2×N single mode passive power splitter based on Planar Light wave Circuit (PLC) technology. The device uniformly splits the optical signals present at the input ports to multiple output ports. Power splitters can also be used in the reverse direction in order to combine multiple optical signals present at the output ports into the input ports.

- ABS module PLC splitters are available in 1\*N & 2\*N split ratio; N=2, 4, 8, 16, 32, 64
- Meets and exceeds performance as per the requirements of Telcordia GR-1221 and GR-1209 standards
- Low insertion loss
- Excellent splitting uniformity
- Low polarization dependency
- High maximum power tolerance
- Available in both pre-connectorised and unconnectorised bare type
- Available in SM SC and LC connector option with 900um tight buffer cable
- 100% tested for mechanical and optical characteristics
- RoHS Compliant

AFF-SPA264SCA9	AFF-100440	2*64 PLC Splitter ABS Module type 900µm with SM SC APC Connector

Note: Replace SCA with LCA in the above part numbers for LC APC connector PLC Splitter

## LGX Cassette Module PLC Splitter

AFNS provides a complete range of high performance 1×N or 2×N single mode passive power splitter based on Planar Light wave Circuit (PLC) technology. The device uniformly splits the optical signals present at the input ports to multiple output ports. Power splitters can also be used in the reverse direction in order to combine multiple optical signals present at the output ports into the input ports.

- LGX cassette module PLC splitters are available in 1\*N & 2\*N split ratio; N=2, 4, 8, 16, 32, 64
- Meets and exceeds performance as per the requirements of Telcordia GR-1221 and GR-1209 standards
- Low insertion loss
- Excellent splitting uniformity
- Low polarization dependency
- High maximum power tolerance
- Available in SM SC and LC Adapters
- 100% tested for mechanical and optical characteristics
- RoHS Compliant

OPTICAL FIBER SOLUTIONS

Optical Fiber Pigtails – Standard Type

AFNS provides a complete range of high performance fiber pigtails with advanced manufacturing process.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and IEC standards
- Available in single mode 9/125um OS2 & multimode 50/125um OM2, OM3, OM4 & OM5 fiber types
- Available in simplex & duplex type
- Available in variety of connector configurations
- Precision ferrule end face geometry
- Factory polished and tested as per industry standards
- Low insertion loss
- Available in short boot and long boot variants
- Available in 900um, 2mm & 3mm cables
- 100% tested for mechanical and optical characteristics
- RoHS Compliant

OPTICAL FIBER SOLUTIONS

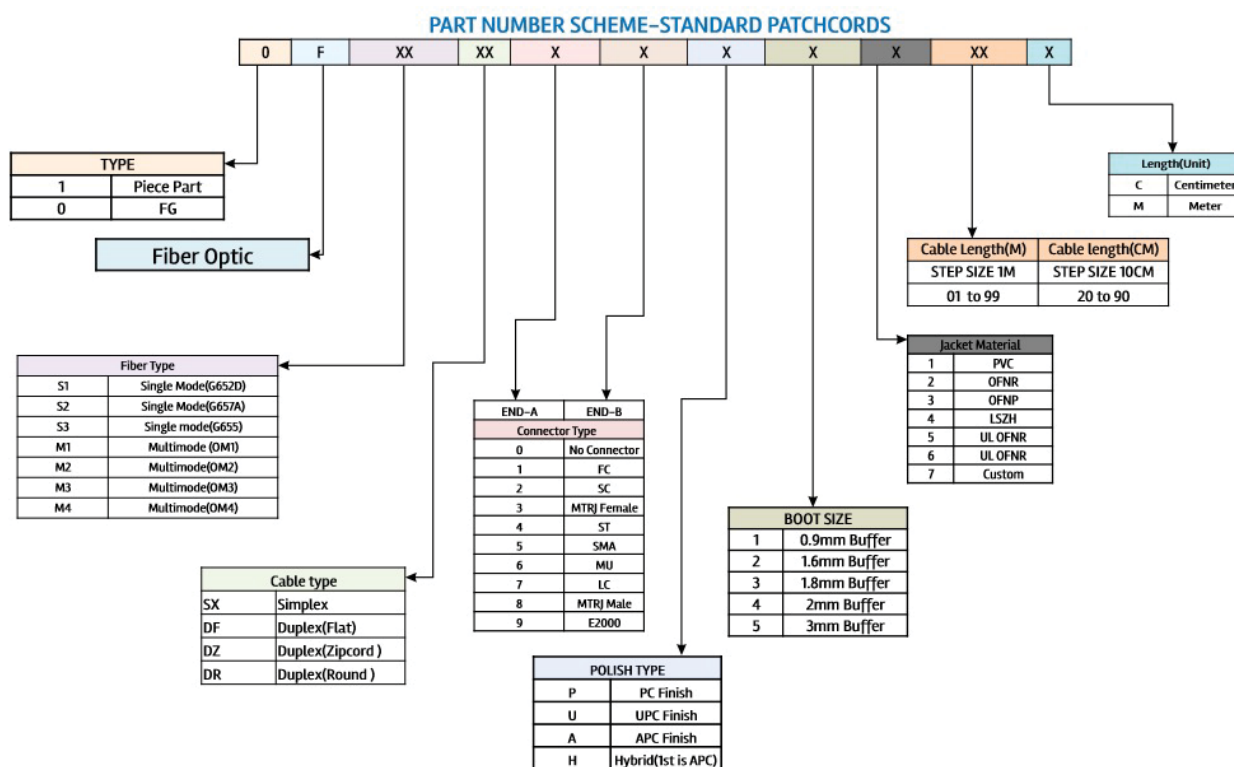

## Optical Fiber Patch Cords - Standard Type

AFNS provides a complete range of high performance fiber cable assemblies with advanced manufacturing process.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and IEC standards
- Available in single mode 9/125um OS2 & multimode 50/125um OM2, OM3, OM4 & OM5 fiber types
- Available in simplex & duplex type
- Available in G657A bend insensitive fiber type
- Available in variety of connector configurations
- Available in standard and custom cable assemblies
- Precision ferrule end face geometry
- Factory polished and tested as per industry standards
- Low insertion loss
- Available in short boot and long boot variants
- Available in 900um, 2mm & 3mm cables
- Available in different jacket materials like LSZH, PVC, OFNR, OFNP, others
- Available in zip cables, flat and round cable types
- 100% tested for mechanical and optical characteristics
- RoHS Compliant

# DIN RAIL TYPE FIBER PANEL

## Mini DIN Rail Type 1

AFNS mini DIN rail type1 fiber optic panel are designed to support and secure fiber terminations in industrial and building automation applications.

- Constructed of high quality cold rolled closed annealed steel (CRCA) with electrostatically applied powder coat
- Rugged steel construction
- Available in black or grey body
- Suitable for DIN rail mount
- Loaded with splice tray
- Top and bottom access for incoming and outgoing backbone cables
- Used to extend fiber runs in remote areas such as manufacturing floors
- Loaded with SC or LC or FC type adapters with maximum 12 fiber counts
- 100% tested for mechanical and optical characteristics
- RoHS compliant

## Outdoor Dome Type Closure - Type 1

AFNS dome splice closures are designed to protect fiber cable splices for various outside plant applications.

- Capacity 12F-144F; Max 6 trays of 24F/tray
- Mechanical dome type
- Constructed of high quality modified polymer plastic
- UV and chemical resistant – suitable for underground, aerial and duct mount locations
- Suitable with most cable constructions – loose tube, skeleton, and ribbon type FO cables
- Loaded with splice tray
- IP-68 protection – integrated seal air tight and water tight
- No special tools are required for installation
- Operating temperature: -40°C to +80°C
- 100% tested for mechanical performance
- RoHS compliant

AFF-JCDH072FE	AFF-100550	72F Dome Fiber Splice Closure - Type 2
AFF-JCDH096FE	AFF-100551	96F Dome Fiber Splice Closure - Type 2
AFF-JCDH144FE	AFF-100552	144F Dome Fiber Splice Closure - Type 2

## MPO Rack Mount Solutions

AFNS advanced MPO solutions are designed to support high density plug & play solution and secure fiber terminations for mission critical applications such as Data center and Storage area networks (SAN). It enables fast & economical installations.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and IEC standards
- Rack mount 1U Modular panel are available in 3 variants for 3 cassettes, 4 cassettes & High density 6 cassette configurations
- Modular & scalable construction
- Available in both Singlemode and Multimode Fiber types
- Low loss insertion loss (0.50dB insertion loss per cassette for optimized OM3/OM4/OM5 cassettes)
- Cassettes are available in 6F, 12F, 24F LC-MPO/MTP® versions.
- Easy pluggable cassettes fastened by snap latches
- Extended tab available for easy loading/unloading of high density 6 way Cassette.
- 100% tested for mechanical and optical characteristics
- RoHS Compliant

### Ordering Information

Part Number	Product Code	Product Description
AFF-MCT2-096LC1U	AFF-100553	1U 4 way Cassette Modular Panel Type 2 – Unloaded
AFF-MCT2-24MLCD0-PX	AFF-100554	24F MPO LC Duplex Singlemode OS2 Cassette Type 2
AFF-MCT2-24MLCD3-PX	AFF-100555	24F MPO LC Duplex Multimode OM3 Cassette Type 2
AFF-MCT2-24MLCD4-PX	AFF-100556	24F MPO LC Duplex Multimode OM4 Cassette Type 2
AFF-MCT2-24MLCD5-PX	AFF-100557	24F MPO LC Duplex Multimode OM5 Cassette Type 2
AFF-MCT2-096MLCD0-PX	AFF-100558	1U 96F 4 way Cassette Panel Type 2–Loaded with 4*24F SM OS2 MPO LC Cassette
AFF-MCT2-096MLCD3-PX	AFF-100559	1U 96F 4 way Cassette Panel Type 2–Loaded with 4*24F MM OM3 MPO LC Cassette
AFF-MCT2-096MLCD4-PX	AFF-100560	1U 96F 4 way Cassette Panel Type 2 – Loaded with 4*24F MM OM4 MPO LC Cassette
AFF-MCT2-096MLCD5-PX	AFF-100561	1U 96F 4 way Cassette Panel Type 2 – Loaded with 4*24F MM OM5 MPO LC Cassette

X denotes MPO polarity: Replace X with 'A' for Polarity A, 'B' for Polarity B and 'C' for Polarity C  
MTP® Cassette Panel and Cassettes are available on request

## MPO - MPO Cable Assemblies

AFNS advanced MPO solutions are designed to support high density plug & play solution and secure fiber terminations for mission critical applications such as Data center and Storage area networks (SAN). It enables fast & economical installations.

- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and IEC standards
- Available in both Singlemode and Multimode Fiber types
- Available in 12F and 24F fiber counts
- Round & flexible outer jacket is easy to install
- Low loss insertion loss (0.35dB max insertion loss for optimized OM3/OM4/OM5 assemblies)
- Standard, low loss and elite MPO/MTP® versions available
- Available in standard and customized lengths
- Easy pulling eye is installed to protect the assembly during installation
- 100% tested for mechanical and optical characteristics
- RoHS Compliant

OPTICAL FIBER SOLUTIONS

## MPO - LC Trunk Cable Assemblies

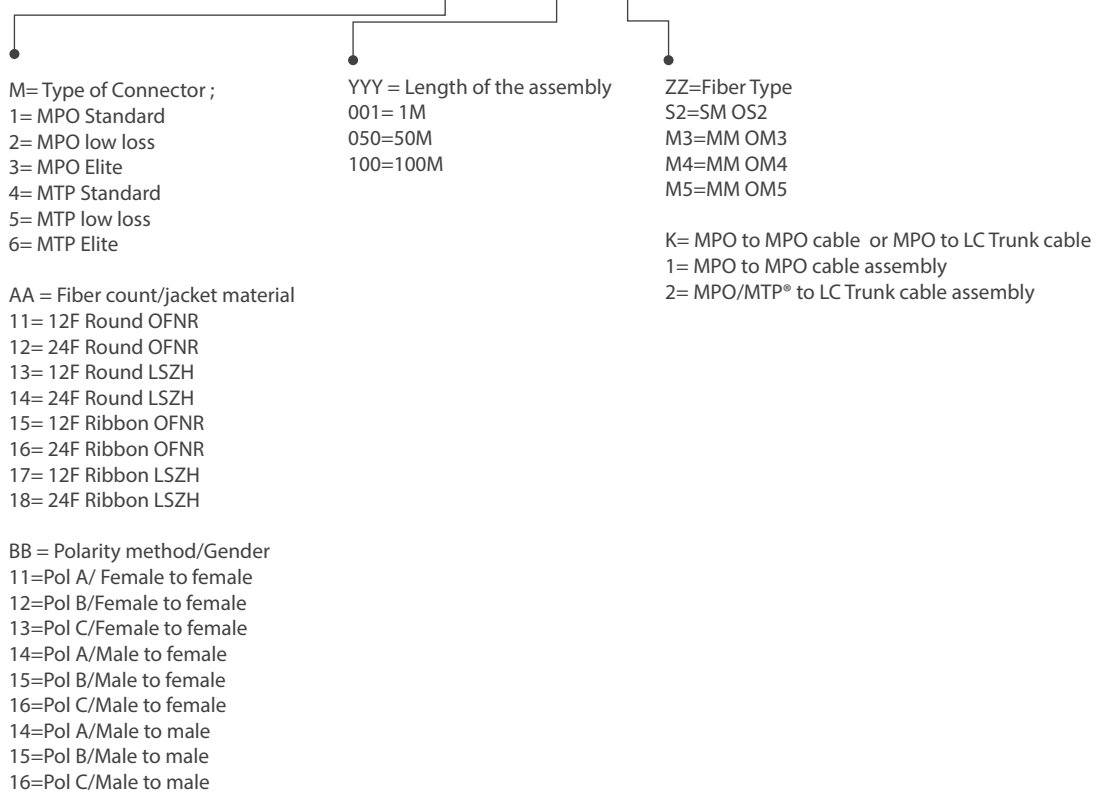

AFNS's advanced MPO solutions are designed to support high density plug & play solution and secure fiber terminations for mission critical applications such as Data center and Storage area networks (SAN). It enables fast & economical installations.

- End A: LC Trunk assembly ; End B: MPO
- Meets and exceeds transmission performance as per the requirements of ANSI/TIA-568.3-D and IEC standards
- Available in both Singlemode and Multimode Fiber types
- Available in 12F and 24F fiber counts
- Round & flexible outer jacket is easy to install
- Low loss insertion loss (0.35dB max insertion loss for optimized OM3/OM4/OM5 assemblies)
- Standard, low loss and elite MPO/MTP® versions available
- Available in standard and customized lengths
- Easy pulling eye is installed to protect the assembly during installation
- 100% tested for mechanical and optical characteristics
- RoHS Compliant
